---

On November the 6 th, National Grid Electricity Transmission announced plans to streamline 10GW of battery energy storage (BESS) ...

Stryten Energy announced a plan to expand its domestic manufacturing capacity to support American energy security and resilience.

Imagine storing enough energy to power 1 million homes for 24 hours. That's exactly what a 10GWh lithium battery energy storage project brings to the table - literally and ...

BLC Energy has submitted plans for a 100MW solar and battery energy storage project in Aberdeenshire, Scotland. The proposed development, named Bruntland Solar, will ...

Developers are installing larger batteries in Texas, with or without solar, capitalising on cost savings to maximise power revenues.

The California Independent System Operator (CAISO), which manages about 80% of California's electricity, has connected 10.219 GW ...

Drawing from comprehensive industry data, here's my exclusive ranking of the Top 10 Largest Renewable Energy Storage Projects of 2025 (focused on BESS integrated with ...

On November the 6 th, National Grid Electricity Transmission announced plans to streamline 10GW of battery energy storage (BESS) capacity that is currently waiting for a grid ...

I was recently walking through our Blue Jay project in Texas, with some of our most efficient, high-performing solar panels to my right ...

National Grid has unveiled plans to streamline 10GW of battery energy storage (BESS) capacity that is currently waiting for a grid connection. In an announcement made ...

Pine Gate's assets became available after it filed for Chapter 11 bankruptcy in November, seeking buyers for its roughly 10GW US solar and energy storage project portfolio.

19 battery energy storage system projects, equating to 10GW, will be offered dates to plug into the grid four years earlier than planned. National Grid explained that forwarding these projects is a ...

EDF has set its sights on becoming a European leader in energy storage after announcing plans to invest EUR8 billion (~\$163.7 billion) in ...

In an announcement made today (6 November), the organisation stated that 19 BESS projects, worth around 10GW, will be offered dates to plug in, on average, four years ...

Riyadh, November 04, 2024, SPA -- The Saudi Power Procurement Company (SPPC), under the supervision of the Ministry of Energy, has started the qualification process for the first group of ...

AES brings 1 GW of solar + storage online in California, and full buildout will be the largest of its kind in the US by 2026.

Head of Enel North America's renewable energy business, Stephen Pike, reflects on the journey to 10 GW of wind and solar and 1 ...

I was recently walking through our Blue Jay project in Texas, with some of our most efficient, high-performing solar panels to my right and rows of battery energy storage ...
