-----

The unit is a non-isolated bidirectional 200kW / 800V DC/DC power converter cabinet solution. Flexible design and application with its 800 Vdc maximum voltage on the high voltage side and ...

Explore our collection of rack-mount power supplies at BridgeCom Systems, designed to provide reliable and efficient power management solutions for your communication equipment.

The GTEM-400V200KW-200KWH-R system is designed to provide high-power independent micro-grid solution, which can combine various input power sources, improve the reliability of ...

Find rack mount DC power supplies for ATE, EV, and industrial test systems. Scalable, programmable, and ready for automation with remote interfaces.

The GTEM-400V200KW-200KWH-R system is designed to provide high-power independent micro-grid solution, which can combine various input ...

Communication Standard communication features - User-friendly 7"touch screen multilingual colour graphic display. - Power Slot tricolour LED indicating Power Module status. - 3 slots for ...

Support active and reactive power response with four-quadrant operation Passed UL/CSA certification, GB/T 34120-2023

This product has acquired the relevant product qualification (s)/license (s) of certain applicable country/countries. View more.

These are versatile power solutions that can be mounted on 19" rack systems and comes with an array of

features including built in ORing and hot swap, PMBus(TM) and LAN options for ...

Enter the total number of servers and the total wattage per service into the calculator to determine the total power consumption of the rack.

The EMS system enables the storage, transfer, and exchange of the energy between the storage device, the photovoltaic system, the grid, and the ...

Dual DSP design provides stable and reliable performance. Reliable parallel connection capability allows for convenient power expansion, supporting up to 12 module parallel connections.

This version is powered by a 12-volt busbar. Unlike traditional 19" racks, where every piece of equipment has its own power connections ...

The SL Series packs 1.5 to 10 kW of programmable DC power into an ultra-compact 1U rack-mount footprint, ideal for dense ATE and OEM racks. ...

The OCP Rack & Power Group is pioneering the future of data center architecture, meeting the evolving needs of data centers. Click to learn more.

The unit is a non-isolated bidirectional 200kW / 800V DC/DC power converter cabinet solution. Flexible design and application with its 800 Vdc ...

The NVIDIA GB200 rack requires supply chain enhancements for mass production, anticipated in 2025. Liquid cooling solutions are now ...

Doing some deployment planning and wondering how much power can your typical racks support? Thanks!
