What is a 3KW Solar System power backup?

A 3kW solar system power backup is a solar power system that is capable of storing enough energy to supply electricity for your home or business. A 3kW solar system with battery backup will provide enough power for an average household for about 10 hours during a power outage.

What is a 3KW Solar System?

A 3kW solar system is one of the most preferable and medium size residential solar system. It is a cost-effective and reliable source of generating electricity in your own homes. The system includes solar panel, solar inverter, solar batteries, and other solar accessories.

How much power does a 3 kWh battery module provide?

The 3 kWh battery modules integrate with the PWRcell Battery Cabinet for 8.6 to 17.1 kilowatt-hours of usable energy--enough to power most homes throughout the day. Battery modules store energy from solar panels or from the local electrical grid to provide a reliable backup source of power for your entire home.
