What are outdoor electrical cabinets & enclosures?

Browse our range of outdoor electrical cabinets and enclosures and discover why we're a trusted name in the telecom industry. An outdoor telecom enclosure is a specialized cabinet designed to house and protect telecommunications equipment in outdoor environments.

Can telecommunications equipment be terminated outdoors?

One of the biggest challenges of terminating your telecommunications equipment outdoors is finding outdoor enclosures that will be able to properly withstand the elements. Temperature, moisture, ice, shock hazards, and UV damage are all potential dangers to consider before purchasing an outdoor enclosure or cabinet.

How is a telecom cabinet installed?

Installation: The cabinet is installed on-site, typically on a concrete pad or mounting base. All telecom equipment is configured and connected to the appropriate power sources and communication lines.

What are the requirements for a telecom cabinet?

Compliance with Standards: Depending on the region, the cabinet must meet specific industry standards such as IP (Ingress Protection) ratings, seismic ratings, or fire safety standards. This general process may vary slightly depending on the manufacturer and specific requirements of the telecom project.

IP-rated outdoor cabinets for housing networking and power equipment in external environments. Suitable for wall or pole mounting.

Application: PV Supporting Energy Storage Installation: Cabinet Floor-Mounted Energy Capacity: 100kWh-500kWh Power Configuration: 100kW-250kW Cycle Life: 8000 Cycles (80%DOD) ...
