----

What is an IP65 enclosure?

Casters,support legs and risers. IP65 enclosures are general outdoor cabinets that provide basic waterproof protection. They are equivalent to NEMA 4 and NEMA 4X enclosures. Our enclosure designs provide high quality electrical enclosures for industrial applications that can be easily customized to meet IP65 standards at a standard-model price.

What is an IP65 certificate?

IP65 Certificate (Click to View) What Are IP-Rated Enclosures? IP (Ingress Protection) ratings are defined by the international standard IEC 60529 to specify how well an enclosure protects against the intrusion of solid particles (like dust) and liquids (like water). Each rating consists of two digits:

What items are included in an IP65 enclosure?

Environmental controls, including thermostats, heat strips, air conditioning, passive or fan-assisted venting and insulation. "Washdown"rated fan assemblies. Light switches. Viewing windows. Fuse blocks and power panels. Casters, support legs and risers. IP65 enclosures are general outdoor cabinets that provide basic waterproof protection.

What does IP65 code mean?

The two-digit code shows the protection against particles(the first digit) and water (the second digit). IP65 electrical enclosures provide: Complete protection for the enclosed equipment from dust and other materials such as dirt,oils and non-corrosives. Protection from voltage and moving parts for people who come in contact with the enclosure.
