Do Ion-line storage cabinets have fire protection?

Discover the ION-LINE storage cabinets. Charging lithium batteries outside working hours and unattended can pose an increased fire risk. For this reason, the ION-LINE charging cabinets are equipped with 90-minute fire protection from the inside to the outside and vice versa.

Are there safety cabinets for lithium ion batteries?

There are safety cabinets that are used exclusively for the passive storage of batteries, as well as those that allow both the storage and charging of lithium-ion batteries. ION-LINE passive storage safety cabinets offer a standard 90-minute fire resistance rating both from the outside to the inside and vice versa.

Can a lithium battery storage cabinet be used as a charging station?

Many lithium battery storage cabinets double as charging stations. If you plan to charge batteries in storage, ensure the cabinet includes: Factory-installed, grounded metal-encased electrical outlets. Overheat and short-circuit protection. Rear-mounted socket strips within the cabinet. Retrofitting a cabinet to allow charging can introduce risks.

Where are lithium-ion battery cabinets made?

Products in our catalog are proudly made in the U.S.A. Shop robust lithium-ion battery cabinets designed for maximum safety and durability. Ensure compliance with OSHA regulations and protect your workplace from potential hazards. All product made in USA.
