Does the Middle East have a Bess project?

The Middle East is making effort in energy projects other than the world's largest BESS project. The UAE has broken ground on the world's largest solar and BESS project, first of its kind.

Does Saudi Arabia have a Bess project?

Updated August 29, 2025: Saudi Arabia has made major advances in its BESS projects as it launches one of Middle East's largest BESS deployments, a 4GWh BESS project. The nation's battery storage drive comes as HiTHIUM is commissioned with a 4 GWh BESS project in a joint venture between the Saudi Electricity Company and Alfanar.

What is the world's largest Bess project in Saudi Arabia?

The world's largest BESS project in Saudi Arabia is one that has received accolades from the state government. Under Saudi Arabia's Vision 2030 policy roadmap, the country aims to have a 50% share of renewable energy in its grid.

What are the benefits of Bess in the MENA region?

The universal benefits of BESS apply just as strongly to the MENA region: they can support in harnessing the full potential of renewable energy by storing & shifting record low-cost PV or wind power generation to times of the day when demand for electricity is at its highest.

Co-located with the extremely well renowned Middle East Energy Show, join us for the inaugural Energy Storage Middle East Summit in Dubai, April 2026, as we bring our world ...

The Middle East and North Africa saw 2019 again confirm the growth and importance of commissioning large projects and launching additional phases of their ...
