-----

British Solar Renewables was acquired by ICG Infrastructure in July 2022. Earlier this month, Root-Power secured planning permission for a 100MW / 200MWh battery energy ...

The portfolio comprises five (124MW), built, or under construction, co-located solar, battery energy storage and standalone solar assets in the UK and Australia, with a ...

An energy firm starts work on a huge &#163;300m facility in Trafford to store excess power as liquid air.

About British Solar Renewables British Solar Renewables (BSR) is a leading renewable energy developer with over a decade of experience in solar PV and battery energy storage systems ...

National Grid has energised what is being billed as the UK"s largest battery energy storage system (BESS), connecting the 300MW Thurrock Storage project to its transmission ...

Citizenship/Passports and Spouse/Family Visas (UK) - A forum for the discussion of visa/citizenship and GB passport topics related to British expats returning home with their ...

The 150 MW Andasol solar power station is a commercial parabolic trough solar thermal power plant, located in Spain. The Andasol plant ...

British food shop online, delivering to you anywhere worldwide. We provide a great range of British food, British gifts and British health and beauty products, from well known suppliers ...

The Xlinks Morocco-UK Power Project is a proposal to create 11.5 GW of renewable generation, 22.5 GWh of battery storage and a 3.6 GW high-voltage direct current interconnector to carry ...

A new era for renewable power and energy security begins today (Tuesday 8 April) as Ofgem launches a new cap and floor investment support scheme, unlocking billions in ...

Explore British Solar Renewables" battery storage projects. We help drive energy security and the UK"s clean energy future.

The Scottish government has given Kona Energy the green light for the construction and operation of the Smeaton battery energy ...

INRG has completed the sale of the Little Crow project--a 150MWp solar photovoltaic installation co-located with a 60MW battery energy storage system (BESS)--to ...

The Scottish government has given Kona Energy the green light for the construction and operation of the Smeaton battery energy storage system (BESS), a 228 MW/456 MWh ...

Moving back or to the UK - Information for Returning British citizens - Originally posted by "Mercedes" Information for British citizens considering settling in the United Kingdom ...

This financing will support the development of a 1.1 GW solar photovoltaic (PV) power plant integrated with a 200 MWh battery energy ...

The UK"s largest battery energy storage system has gone live in North Yorkshire. Lakeside Energy Park is a 100MW facility in Drax, ...

Explore how Battery Energy Storage Systems (BESS) store energy, support solar power, and reduce costs. Learn benefits, types, and applications for a sustainable future.
