-----

Each stack offers 12 kWh of energy storage capacity and there are four in each SigenStack unit, for a 10 MW/20 MWh total system capacity at the Bulgarian site. Sigenenergy, ...

A key highlight of the event was a visit to a landmark 20 MWh project in Malko Tarnovo, powered by Sigenenergy's modular C& I battery energy storage system (BESS). The ...

Enhance your patio's decor and organization with outdoor shelving. Browse tiered plant stands, storage cabinets, and utility racks built to endure the elements.

Join us as we dive into a case study of this Bulgarian project which has set a new benchmark for deployment speed and explore the technologies ...

The project deployed 90 units of Sigenenergy's 110 kW inverters, each paired with a 240 kWh SigenStack battery, achieving a total capacity of 20 MWh.

A key highlight was the visit to the 20 MWh Malko Tarnovo project, powered by the company's modular battery energy storage system. Installed in partnership with Trakia MT on ...

Eximprod is commissioning a 65 MW solar park north of Bucharest and Simtel arranged loans for the completion of a 52 MW plant ...

A key highlight was the visit to the 20 MWh Malko Tarnovo project, powered by the company's modular battery energy storage ...

Utility-scale, ground-mounted solar PV (761 MWp) deploying bi-facial modules across 23 PV clusters, with underground MV/ HV cables connecting (~7.5 km) to a new 400 ...

Evaluation of bids at the CFD tender - contracts for over 1500MW, new green energy production capacities, were awarded

A key highlight of the event was a visit to a landmark 20 MWh project in Malko Tarnovo, powered by Sigenergy's modular C& I battery ...

Eximprod Grup is about to commission a 65 MW photovoltaic facility in Prahova county, north of Bucharest, before adding a battery system, and Simtel obtained financing for ...

A key highlight of the event was a visit to a landmark 20 MWh project in Malko Tarnovo, powered by Sigenergy's modular C& I battery energy storage system (BESS).

Sigenergy deployed a 20 MWh modular energy storage system on a solar power plant in Bulgaria, demonstrating a targeted industrial investment in high-efficiency storage technologies.

Six large-scale solar plants colocated with battery energy storage systems should be delivered by mid 2028.

Romania has selected 1,528 MW of onshore wind and solar photovoltaic (PV) projects in its first contract for difference (CfD) tender, at prices that were 20%-30% below the cap, the ...

Join us as we dive into a case study of this Bulgarian project which has set a new benchmark for deployment speed and explore the technologies which made it possible.

Eximprod is commissioning a 65 MW solar park north of Bucharest and Simtel arranged loans for the completion of a 52 MW plant in Giurgiu.
