How big is Bulgaria's energy storage capacity?

A recent capacity tender has already allocated nearly 9,713 MWh to upcoming projects, further reinforcing the country's ambitions in energy storage. Before the commissioning of the Lovech facility, Bulgaria's largest BESS was a 25 MW / 55 MWh system developed by Renalfa IPP in 2024.

Why is Bulgaria building a new power plant?

Energy Minister Zhecho Stankov hailed the installation as a milestone for Bulgaria's energy independence and regional leadership. "This facility will help maintain the most stable energy system in Southeast Europe," he said. "We are the pillar of the Balkans in balancing electricity systems."

Will Bulgaria reach 10 GWh of battery storage capacity?

The new system also signals the beginning of Bulgaria's national plan to reach 10 GWh of battery storage capacity within the next year. A recent capacity tender has already allocated nearly 9,713 MWh to upcoming projects, further reinforcing the country's ambitions in energy storage.

How much money does a battery project in Bulgaria get?

Be the first one to comment on this article. Developers of 82 standalone battery projects in Bulgaria, for an overall 9.71 GWh in capacity, got approval for EUR 587 million in subsidies.

In addition, this month Bulgaria's decarbonisation efforts have taken an important leap forward with the conclusion of the country's first renewable energy with co-located battery ...

The transaction marks one of the country's most advanced storage financing deals to date, supporting Bulgaria's transition toward a more flexible and renewable-powered energy ...

Founded in 2024, Advance Green Energy focuses on building and operating advanced energy storage

installations and aligns with the EU's green transformation strategy.

Bulgaria has selected 82 winning energy storage projects for a share of BGN 1.15 billion (EUR588 million) in financial support.

Bulgaria's energy minister Zhecho Stankov on Thursday inaugurated what is described as the largest battery energy storage installation currently in operation across the ...

About Us Energex is a dedicated renewable energy solutions partner, specialising in transforming green energy potential across Bulgaria and Europe. We offer comprehensive services for ...

AES delivers trusted clean-energy solutions across solar, wind, storage, and digital grid technologies--helping customers worldwide reach ...

Bulgaria has inaugurated a 124 MW / 496.2 MWh battery energy storage system (BESS) in the town of Lovech, described by the Ministry of Energy as the largest such ...

The CEO of International Power Supply (IPS) discussed its cell-to-system BESS manufacturing facility and its high-density product.

A South African investor opened a battery factory in Rousse last year Bulgaria is relying heavily on battery technology and energy ...

Developers of 82 standalone battery projects in Bulgaria, for an overall 9.71 GWh in capacity, got approval for EUR 587 million in subsidies.

Bulgaria has inaugurated a 124 MW / 496.2 MWh battery energy storage system (BESS) in the town of Lovech, described by the ...

Currently, Bulgaria's electricity market offers an opportunity for EUR110 (\$122) per MWh profit on battery energy storage with two hours ...

The project officially launched in August 2025 and is scheduled for delivery by the end of December, with grid connection and operation expected by March 2026. Sermatec will ...

SUNOTEC and Sungrow have signed a strategic agreement to deploy 2.4 GWh of BESS across multiple solar power projects in Europe, with a focus on Bulgaria. The portfolio ...

Developed by Advance Green Energy AD, owned by brothers Kiril and Georgi Domuschiev, the system
