Why is a 15kW solar system more expensive than an off-grid system?

A 15kw solar system with battery backup,off-grid or hybrid,is significantly more expensive,primarily because of the batteries. However,sometimes a hybrid system pays for itself quicker because energy storage helps to avoid peak energy rates from the utility.

What is a 15 kW solar system?

These 15 kW size grid-connected solar kits include solar panels,DC-to-AC inverter,rack mounting system,hardware,cabling,permit plans and instructions. These are complete PV solar power systems that can work for a home or business,with just about everything you need to get the system up and running quickly.

What is a complete off-grid solar kit?

This Complete Off-Grid Solar Kit comes with what you need to run your home or cabin completely off-grid, or commercial solar system ,it includes the 18 X 415W solar panel, 20.48KWH battery, 18000W solar inverter and two set of solar cable and bracket. it will produce around 30KWH per day based on 4 hours sun.

Where can I buy a 15kW solar system?

At A1 SolarStore we offer complete 15kw solar systems for sale where all the parts are already picked by our engineers. The majority of commercial-scope systems are grid-tie which means that you retain the connection to the grid when you add solar. Your appliances use solar energy all the time so that your bills decrease significantly.
