How many photovoltaic projects are there in Italy?

In this latest round, the Italian government allocated 322.2 MW of photovoltaic (PV) capacity across 57 locations, underscoring the strong demand for solar energy. The approved projects vary significantly in scale, ranging from 1.7 MW to 40.7 MW, and show a wide geographic spread. The auction also awarded 88.4 MW to two wind projects.

What did Italy's 15th renewables auction do?

Italy's 15th renewables auction allocated 410.6 MW of capacity, awarding 322.2 MW to solar projects across 57 locations. The auction, led by Gestore dei Servizi Energetici (GSE), also awarded 88.4 MW to two wind projects, supporting Italy's renewable energy goals.

How many PV systems are there in Italy?

Since 2010, the number of photovoltaic systems in Italy has recorded a 10-fold increase, reaching almost 1.6 million units in 2023. That year, Lombardy and Veneto were the regions contributing the most to this sector's growth. Together, they accounted for over 30 percent of the PV installed capacity in the country.

How much does a 5 MW solar project cost?

The lowest bid of EUR 0.07384 per kWh came from a 5 MW solar project in Ancona, central Italy. This competitive pricing reflects the steady decline in solar energy costs, a trend that benefits developers through lower project expenses and consumers through more affordable electricity.

The country aims to promote modules manufactured in the EU with new tender criteria. To this end, the government has introduced non-price-related tender criteria, making it ...

Most of the PV systems are domestic, with an average capacity of around 5 kW. Around 97% of PV plants installed in Italy (669.709 out of 688.398) are connected to the low ...

Italy is one of the leading solar photovoltaic electricity markets in the European Union. In 2024, it had one of the largest cumulated solar ...

Italy's latest renewable energy auction has received more than 1,300 expressions of interest from solar companies, representing a combined proposed capacity of 17.5GW of ...

Italy added 5.23GW of new solar PV capacity in 2023, according to Italia Solare, the highest annual total since 2011.

We are a worldwide Lavazza coffee distributor. We offer all types of Lavazza coffee, Lavazza Eco Caps, Nespresso, Lavazza 1kg Pack. Order now!

Most of PV plants installed in Italy (1.568.230 out of a total of 1.597.447, a percentage of 98,2%) is connected to the low voltage distribution grid, while 29.055 plants are ...

Italy added around 1,092 MW of new PV systems in the second quarter of this year, with the rooftop segment driving demand.

Rome, July 2025 - Italy's solar energy market is poised for significant expansion, with projections indicating that installed capacity will surge from 38.53 gigawatts (GW) in 2025 to 65.57 GW by ...

The 15th renewables auction, with its allocation of 322 MW in solar power, marks another significant step on Italy's journey toward a ...

As Italy's solar market looks to be finding its feet after a decade below the 1GW mark, 2024 could be the year to cover real ground.

The MEGATRON 1MW Battery Energy Storage System (AC Coupled) is an essential component and a critical supporting technology for smart grid and renewable energy ...

The current value of the Electricity Spot Prices in Italy is 105.073 EUR/MWh. The Electricity Spot Prices in Italy decreased to 105.073 EUR/MWh on 1/1/2026, after it was ...

This paper received valuable contributions from several stakeholders of Italian PV market: operators, installers, manufacturers of PV modules and other components, IUAV ...

The procurement exercise, the second solar auction under Italy's Fer X incentive scheme and first to exclude the use of Chinese solar modules, cells and inverters for projects ...
