-----  
Can You Weld a silencer to a portable generator?

In most cases you can weld the adapter directly to the exhaust port. The Silent Rider®'s patented technology has been adapted to silence your portable generator. We are the only custom silencer on the market and 100% made in America. You can expect up to a 15% reduction on exhaust noise, with no loss in power and performance.

Can a Silent Rider silence a portable generator?

The Silent Rider®'s patented technology has been adapted to silence your portable generator. We are the only custom silencer on the market and 100% made in America. You can expect up to a 15% reduction on exhaust noise, with no loss in power and performance. The silencer will make an unbearable noise more bearable.

Does the LCGP silencer reduce generator exhaust noise?

The LCGP silencer kit promises to reduce generator exhaust noise by 50%-55% with its upgraded muffler grille, sound insulation materials, and optimized design.

Will a bolt-on Silencer fit a portable generator?

If your exhaust outlet outside diameter is greater than 2-3/8 inches the bolt-on silencers will not fit. In most cases you can weld the adapter directly to the exhaust port. The Silent Rider®'s patented technology has been adapted to silence your portable generator. We are the only custom silencer on the market and 100% made in America.
