---

Solar-Plus for Electric Co-ops (SPECs) was launched to help optimize the planning, procurement, and operations of battery storage and solar-plus-storage for electric cooperatives.

Explore India's leading battery energy storage system companies, their solutions, and impact on renewable energy growth.

Streamline the solar and energy storage buying process through the use of public agency cooperative procurement. Drive down solar and energy storage project pricing using ...

New York's 6 GW Energy Storage Roadmap: Policy Options for Continued Growth ("the Roadmap") built on energy storage programs established by the Commission in its 2018 ...

International cooperation in action - using the CEM knowledge sharing platform to unlock Battery storage deployment Recognizing that Battery storage will be vital for integrating renewables, ...

The energy storage industry walked a bumpy road in 2025, but eyes are turning toward 2026's tech stack. While lithium-ion remains dominant, pressure is building for longer ...

Streamline the solar and energy storage buying process through the use of public agency cooperative procurement. Drive down solar and energy storage project pricing using an ...

This rulemaking identified energy storage end uses and barriers to deployment, considered a variety of possible policies to encourage the cost-effective deployment of energy ...

This chapter supports procurement of energy storage systems (ESS) and services, primarily through the

development of procurement documents such as Requests for Proposal (RFPs), ...

Successful battery energy storage procurement requires a detailed, strategic approach that goes far beyond simply choosing the lowest bidder. For project developers, ...

Energy Storage News An eight-hour duration lithium-ion battery project has become the first long-duration energy storage resource selected by a group of non-profit energy ...

While the energy storage market continues to rapidly expand, fueled by record-low battery costs and robust policy support, challenges still loom on the horizon--tariffs, shifting ...

2 Battery Energy Storage System Procurement Checklist This checklist provides federal agencies with a standard set of tasks, questions, and reference points to assist in the early stages of ...

A well-defined procurement strategy ensures you acquire a battery energy storage system (BESS) that not only meets technical requirements but also delivers long-term value, ...

Battery energy storage captures renewable energy when available and dispatches it when needed most. The report provides ...

In November 2023, South Africa announced preferred bidders for the first Battery Energy Storage IPP Procurement Programme tender, which - if all implemented in full - would add 360 MW of ...

In the world of energy storage and power management, purchasing managers face unique challenges when sourcing advanced battery systems. Optimizing costs while ensuring ...

Checklist provides federal agencies with a standard set of tasks, questions, and reference points to assist in the early stages of battery energy storage systems (BESS) project ...
