What are the best lithium battery storage cabinets?

Our cabinets, featuring renowned brands like Ecosafe, Cemo, and Armorgard, offer industry-leading solutions for lithium battery storage. Built with advanced fire protection, our products include 60- and 90-minute fire-rated cabinets tested up to 105 minutes to meet EN14470-1 standards, ensuring your batteries are safe even under extreme conditions.

Why do you need a lithium battery storage cabinet?

As the demand for lithium-ion batteries grows, proper storage and fire protection are essential for operational safety and regulatory compliance. Our cabinets, featuring renowned brands like Ecosafe, Cemo, and Armorgard, offer industry-leading solutions for lithium battery storage.

What is a lithium ion cabinet?

A lithium-ion cabinet is a specialist storage solution designed to safely house lithium batteries. It offers fire-resistant construction, secure locking, and controlled ventilation to minimise the risk of fire, thermal runaway, or toxic gas release. What added value does a battery charging cabinet offer?

What is a lithium-ion battery charging & storage cabinet?

A lithium-ion battery charging and storage cabinet, fortified with ChargeGuard(TM) for ultimate protection. This state-of-the-art cabinet features multiple layers of advanced shielding, specifically designed to reduce the risks of battery fires and thermal runaway.
