---

In a historic stride for Azerbaijan's renewable energy sector, Citaglobal Bhd (Citaglobal) on Saturday (16 November) signed a framework agreement with the Port of Baku ...

Whenever I read about energy transfer via Integrated Tunnels, I read that you put Energy Importers where you generate power, and Energy Exporters where you want your power (your ...

PV technology integrated with energy storage is necessary to store excess PV power generated for later use when required. Energy storage can help power networks withstand peaks in ...

These projects, key to the development of the green energy zone, are expected to generate an annual output of 268 million kWh of electricity.

The present invention relates to a building-integrated photovoltaic module fixing device having an earthquake-resistant structure, configured to fix and install a building-integrated photovoltaic ...

In order for buildings to be earthquake-resistant, first of all, it is necessary to strictly comply with building codes.

The Sustainable and Holistic Integration of Energy Storage and Solar PV (SHINES) program develops and demonstrates integrated photovoltaic (PV) and energy storage solutions that are ...

This device charges via solar energy while the vehicle is in motion, increasing its range. With built-in intelligent charging management, it ensures optimal battery health and powers in-vehicle ...

The wide application of renewable energy sources has been identified as one of the priorities of the energy policy carried out under the leadership of the President of the ...

Industrial and commercial energy storage cabinets are transforming how businesses in Baku manage power consumption. As Azerbaijan's capital accelerates its green energy transition, ...

In its second green energy phase (2027-2030), Azerbaijan aims to launch at least 10 additional large-scale projects, contributing an estimated 6 GW in new capacity. This next ...

Our team specializes in designing earthquake-resistant solar-plus-storage systems tailored to your geographical risks and energy needs. Whether you're safeguarding a home, ...

Latest earthquakes near Baku, Baki today Complete overview of the latest earthquakes near Baku, Baki, Azerbaijan, updated every minute. Did you feel an earthquake today in Baku? If an ...

The integrated photovoltaic, storage and charging system adopts a hybrid bus architecture. Photovoltaics, energy storage and charging are ...

Energy storage cabinets are crucial in modern energy systems, offering versatile solutions for energy management, backup ...

These solar initiatives are integral to the development of Azerbaijan's green energy zone. Once operational, the three projects are ...

The project, a collaboration between Citaglobal Bhd and the Port of Baku, marks the nation's first commercial renewable energy initiative integrating solar power with a Battery Energy Storage ...

Tiza Green Energy will install BESS system from Citaglobal, and this will make it possible to use a portion of the solar energy produced for the port's needs, while the remaining energy will be ...
