Do electric utilities offer incentives for solar metering?

While the federal solar tax credit is the only widely available residential solar incentive from the federal government, many states have incentives available to homeowners who adopt solar. Within those states, some electric utilities offer incentives as well. Electric utilities are also responsible for Net Metering.

Do you pay sales tax on solar panels?

Sales Tax Exemption: Homeowners pay no sales tax on solar installations. NY-Sun: State-level program offering various incentives and income-targeted programs through its contractor network. Net Metering: Utility companies pay customers for excess energy produced in the form of monthly credits on their monthly bills.

Which states offer solar rebates & tax credits?

Solar rebates, tax credits, sales tax exemptions and other incentives vary significantly from state to state. Arizona, Hawaii, Massachusetts, New Mexico, New York, South Carolina and Utah offer personal tax credits to encourage solar installations.

Do solar installation companies offer financing?

Many solar installation companies offer a financing option for customers who do not want to spend the large upfront cost. Interest rates, promotions, and terms vary by company, and your solar representative can explain your options to help you determine if financing is right for you.
