Does stryten have a joint venture with Largo?

Alpharetta, Ga., February 4, 2025 - Stryten Energy LLC, a U.S.-based energy storage solutions provider, today announced the signing of agreements by one of its affiliates, Stryten Critical E-Storage LLC, with a subsidiary of Largo Inc. (NASDAQ, TSX: LGO), Largo Clean Energy Corp. (LCE), to form the Storion Energy, LLC joint venture.

What is the New York battery & energy storage technology consortium?

The New York Battery and Energy Storage Technology (NY-BEST(TM)) Consortium, established in 2010, serves as an expert resource for energy storage-related companies and organizations looking to grow their business in New York State.

How will a 100MW battery energy storage system work?

The facility will serve as a large-scale battery energy storage system capable of charging from, and discharging into, the New York power grid. When fully functional, the 100MW battery energy storage project will be able to discharge electricity to the grid particularly during peak demand.

How will battery storage impact New York City's future?

"Battery storage will play a significant role in advancing New York City's just transition to a clean energy future and will help to replace dependency on highly pollutive peaker plants that emit dangerous pollutants - ultimately creating a brighter and healthier future for all New Yorkers," said NYCEDC President & CEO Andrew Kimball.
