Gilkes Energy has been awarded planning consent for its Earba Pumped Storage Hydro (PSH) scheme in Scotland, UK.

The 2022 Energy Storage Workshop was attended by 140 local and national experts with a variety of perspectives. 2022 Speaker presentations are posted below in alphabetic order by last name.

A comprehensive energy storage workshop is an interactive event focused on the fundamentals, applications, and innovations in energy storage solutions. It encompasses ...

The Government's cap and floor scheme for long duration energy storage in Great Britain is taking shape. Learn about eligibility, ...

plan specified development goals for new energy storage in China, by 2025, new energy storage technologies will step into a large-scale development period and meet the conditions for large ...

The Energy Storage Coalition workshop will create the space for an interactive discussion between the entities involved in this process, the ...

Under the Energy Storage Safety Strategic Plan, developed with the support of the Department of Energy'''s Office of Electricity Delivery and Energy Reliability Energy Storage Program by ...

To reduce the waste of renewable energy and increase the use of renewable energy, this paper proposes a provincial-city-county spatial scale energy storage configuration ...

The Department of Energy'''s (DOE) Office of Electricity (OE) held the Frontiers in Energy Storage:

Next-Generation Artificial Intelligence (AI) Workshop, a hybrid event that brought together ...

The UK has confirmed a new scheme aiming to stimulate investment in the country's long-duration energy storage (LDES) sector.

In Chapter 2, based on the operating principles of three types of energy storage technologies, i.e. PHS, compressed air energy storage and battery energy storage, the mathematical models for ...

Feedback and Iteration: Refining Workshop Design. Feedback is a gift. Use post-workshop surveys and reflection sessions to gather insights from participants. Be open to constructive ...

This research addresses strategic recommendations regarding the applications of battery energy storage systems (BESS) in the context of the deregulated electricity market. ...

Research on Location and Capacity Planning Method of Distributed Energy Storage ... The operation and maintenance costs of energy storage systems are mainly composed of three ...

Deployment of Energy Storage in RELAC Countries series which included workshops, in-person trainings, and technical support, to help countries to build their technical awareness for energy ...

Let's cut to the chase - electric energy storage workshops are becoming the secret sauce for sustainable energy solutions. while solar panels soak up sunlight and wind turbines ...

This research addresses strategic recommendations regarding the applications of battery energy storage systems (BESS) in ...

The Long Duration Electricity Storage (LDES) Technical Decision Document (TDD) was published on 11 March 2025 by Ofgem and the Department for Energy Security and Net ...
