-----  
What is a drone docking station?

They are typically designed for battery-powered multirotor and eVTOL drones, as pure fixed-wing platforms require runway space to land. Some drone docking stations also provide an enclosure that stores the drone and protects it from rain, theft and damage. These enclosures may also be used to store packages for delivery drone services.

What is an outdoor Telecom cabinet?

Technologies such as digital transformation, Industry 4.0 and Big Data create revolutionary differences in our lives. Outdoor Telecom Cabinets are rugged enclosures designed to protect telecommunications equipment from environmental factors while providing secure access for maintenance.

Can You charge a drone with a charging station?

Our charging station is compatible with most drones. With our universal docking systems, you can safely and easily charge drones while protecting them from damage and theft. Our systems are user-friendly and compatible with most commercial drones on the market.

How do I Charge my Drone?

Once the pogo pins make physical contact with our universal Charging Pad, the charging process begins. This way, no internet connection is required, and your drone can be charged in the most remote areas. The Falcon Box is a combination of the Charging Pad equipped with a protective cover. This cover is waterproof and resistant to the elements.

This Integrated Cabinet for Telecom Equipment is designed for outdoor telecom applications, incorporating power distribution units, thermal management (AC or fan), standard 19-inch ...
