-----

Byhmgard said Tuesday it received an order worth 43 million kronor from Solarigo Systems to deliver 12 battery energy storage system units and three transformers.

Merus Power has secured a 30MWh order in Finland while Metlen and Aquila won government financial support for projects in Italy ...

The World's Largest Sand Battery Was Just Switched On In Finland By turning excess green energy into storable heat, the sand ...

Merus Power has signed an agreement with Skip Wind 5 Oy (the Finnish holding company of Ardian Clean Energy Evergreen Fund (ACEEF)) to deliver a large energy storage ...

The 70 MW/140 MWh BESS project will be located in Nivala, northern Finland. Set to go online in 2026, the facility will enhance grid stability, energy resilience and accelerate ...

Finland has taken a significant step toward enhancing its energy infrastructure by launching a pioneering grid-forming battery energy storage system (BESS) in the Nordic region.

01:47 AM EST, 12/31/2025 (MT Newswires) -- Byhmgard (SPIFF.ST) said Tuesday it received an order worth 43 million kronor from Solarigo Systems to deliver 12 battery energy storage ...

Hitachi Energy has signed an agreement with Nordic Electro Power (NEPower) to provide advanced power conversion technology for Finland's largest battery energy storage ...

With zero-compromise performance, virtually unlimited cycles and pricing below lithium-ion, Donut Battery unlocks next-generation applications ranging from data center ...

Two Finland BESS project announcements, with Exilion ordering grid-forming energy storage technology from Merus Power and Nala Renewables ordering units from ...

Paistinkulma Energy Storage is set to become one of the largest battery energy storage systems (BESS) operating in Finland's frequency reserve ...

The status of these energy storage technologies in Finland will be discussed in more detail in the next sub-sections, giving a better understanding of the current and potential ...

SEB Nordic Energy's portfolio company Locus Energy, in collaboration with Ingrid Capacity, proudly announces the groundbreaking of one of Finland's largest battery energy ...

Norway aims to become one of the leading battery storage markets in the Nordic region, but Sweden and Finland have already ...

Aquila Clean Energy EMEA has started construction on a 50MW BESS in Finland, while MW Storage has launched two new ...

Finland has launched the Nordic region's first grid-forming battery energy storage system (BESS) at Fingrid's Virkkala substation. This 30 MW/30 MWh facility was developed by ...

A battery-storage project that will become the biggest in Finland has been given the go-ahead to start construction. The final investment decision, taken in late February by SEB ...

The Finland Battery Market is projected to reach USD 0.03 Billion by 2030, due to the growth of renewable energy projects.
