What is a temperature and humidity controlled cabinet?

The temperature and humidity controlled cabinet range supplied by Blundell is designed to ensure that a constant temperature is maintained, and the relative humidity is kept between 1% - 5%. Dry storage cabinets are required for electronic, medical and engineering applications.

How are humidity controlled storage cabinets and drying cabinets related?

Humidity controlled storage cabinet systems and drying cabinets are related to one another due to the rate at which the humidity level can be controlled. Desiccator cabinets, or desiccant dry boxes, are appliances which have a drying substance in them that acts to both remove water and protect the items from water in the ambient air.

What is a dry storage cabinet?

Dry storage cabinets are required for electronic, medical and engineering applications. Humidity controlled storage cabinet systems and drying cabinets are related to one another due to the rate at which the humidity level can be controlled.
