Construction work on our first eight solar farms is well underway. With our latest investment decision, we have prepared the ...

The project's midsized solar farm lies near Stymfalia, 80 km (50 miles) southwest of Athens near the Gulf of Corinth on land leased ...

Meton Energy, a joint venture between renewable energy companies RWE and PPC, has made the final investment decision (FID) ...

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development. The list is ...

In 2023, Athens installed solar arrays on East State Street producing 2.1 megawatts of electricity. These solar arrays provide power to the Athens Wastewater ...

Greece's largest photovoltaic program along a highway is now powering Olympia Odos. With 10 MWp installed across roadside land, toll ...

At Chroma Energy Group, we specialize in developing and deploying large-scale solar power solutions that deliver clean, renewable energy to Athens communities and utility providers.

Greece's largest photovoltaic program along a highway is now powering Olympia Odos. With 10 MWp installed across roadside land, toll canopies and rooftops, the project ...

By accelerating the development of our solar projects with a combined capacity of nearly one gigawatt, we are actively contributing to the country's renewable energy goals. This venture is ...

It was a busy year on the energy front in Utah, with the state involved in a variety of projects. Utah aims to be a world player on the energy stage, particularly when it comes to ...

The Project: The solar field at the Agahozo Shalom Youth Village in Rwanda embodies a range of causes: it helps the long-term ...

China's first gigawatt-level offshore photovoltaic (PV) project, the world's largest open-sea solar installation, has been fully connected to the grid.

International capital and Chinese companies are accelerating the layout of Egypt's new energy market, from gigawatt level solar storage projects to localized production bases. ...

Project Pipeline: This year alone, more than 50 countries have requested our services in developing solar projects. Following the application of our ...

The Athens City Pool is one solar array of three that make up the 2+ MW Athens Eastside Solar Project. Photo provided by Kokosing Solar, the ...
