What is lithium Australia (LFP)?

demand for LFP consumption is likely arry Woodhouse CFO and Company Secretary Mobile +61 (0) 438 674 259Barry.Woodhouse@lithium-au.comLithium Australia aims to ensure an ethical and sustainable supply of energy metals to the attery industry by creating a circular battery economy and enhancing energy se

What is lithium ion battery Lmfp?

LMFP is an emerging product offering a 15 to 20 percent increase in specific energyover LFP when used in a lithium ion battery. Livium,formerly known as Lithium Australia,decided on the local location following internal risk assessments and customer engagement.

Why do we produce LFP?

We are driven to create cheaper, safer, and more ethical and environmentally aware battery materials; to accelerate the domestic battery industry, secure sovereign capability, and enable Australia to compete at a global scale. We are one of few companies outside China to successfully produce LFP.

What is included in the Queensland power generating map?

The map also displays new and proposed power generating facilities. Inclusion of proposed projects in this map should not be interpreted to mean projects have in any way been endorsed by the Queensland Government. It is also important to note that many publicly announced projects may not proceed to completion.
