What is an IP55 rating in outdoor cabinets?

The IP rating on enclosures is an international protection standard that indicates how well the cabinet is protected against two factors: the ingress of dust or solid particles, and the ingress of water.

What is IP55 40U galvanized steel outdoor Telecom cabinet?

An IP55 40U galvanized steel outdoor telecom cabinet is designed to house telecommunication equipment with 19" or 23" rack. It provides protection from vandalism, dust, rain, snow, and dripping water.

What is an IP- outdoor cabinet?

An IP- outdoor cabinet is a precision-designed enclosure made of stainless steel or SMC material. It supports optic fibre distribution, features 3-point locking, and can accommodate 24 to 192 cores.

What is the difference between IP55 & IP65 rated cabinets?

IP55: Electrical panels in non-sterile hospital zones where periodic sanitization occurs. IP65+: Laboratories, operating rooms with frequent disinfection procedures. Our stainless-steel IP-rated cabinets comply with hygiene-critical applications, ensuring cleanability and resistance to medical-grade cleaners.
