Did Seres deliver a new car in Norway?

Seres delivered Seres 5 vehicles to the first European owners in Norway in cooperation with a local dealer. (Image credit: Seres) Seres Group -- one of Huawei 's key partners in the automotive sector -- has started vehicle deliveries in Europe.

Is Norway a good place to buy EV batteries?

An early adopter of electric transport, Norway continues to capture EV battery headlines. Electric cars now account for 79 per cent of new cars sold in Norway, and the MS Medstraum was recently launched as the world's first electric fast ferry. In a global report on lithium-ion batteries, Norway ranked first in sustainability.

What is the market share of hybrid electric cars in Norway?

In 2016 the more general category of hybrid electric cars, which in Norway includes plug-in hybrids, had a market share of 24.5% of new car sales, up from 12.4% in 2015.

Are there electric cars in Norway?

FINNMARK, Norway -- Just a few years ago, almost no one drove electric vehicles up here. In this remote region north of the Arctic Circle -- where reindeer outnumber people, avalanches can bury roads in winter and sunlight disappears for weeks -- "range anxiety" takes on a new meaning. Today, however, nearly all new car sales in Norway are electric.
