---

From Southeast Asia to India and Australia, landmark policies, first-of-their-kind projects and bold investment decisions show that energy ...

Singapore-based multinational Keppel and Chinese tech giant Huawei have announced a strategic partnership to jointly develop ...

Sembcorp Industries has connected a 285 MWh battery storage system to the grid on Jurong Island, Singapore. It is reportedly ...

A battery energy storage system (BESS) is a power station that uses batteries to store excess energy. It is ...

The collaboration focuses on three key areas: integrating smart PV technology into Solarvest's current and upcoming projects, deploying "solar + battery energy storage systems (BESS)" to ...

How Huawei's digital power is reshaping Southeast Asia's energy landscape, from the Philippines' grid to regional renewable innovation.

Huawei and Keppel have signed a Memorandum of Understanding (MoU) to develop solar and battery energy storage system ...

SINGAPORE - The infrastructure division of Keppel will work with Chinese tech giant Huawei International to design and develop solar photovoltaic (PV) systems and battery ...

Sungrow will supply its PowerTitan2.0 energy storage system to CREC as part of the deal. Image: Sungrow. Chinese solar PV inverter ...

Huawei International Pte. Ltd. and Keppel Ltd."s Infrastructure Division have agreed to collaborate on renewable energy solutions, ...

Huawei International Pte. Ltd. and Keppel Ltd."s Infrastructure Division have agreed to collaborate on renewable energy solutions, focusing on photovoltaic (PV) systems ...

The event gathered more than 200 industry leaders and experts from the Asia-Pacific region to explore advanced grid-forming ...

Mr Foo Fang Yong, CEO of Huawei International, said: "Huawei is delighted to have had the opportunity to offer our latest innovations that integrate digital and power electronics ...

Huawei and Keppel have signed a Memorandum of Understanding (MoU) to develop solar and battery energy storage system (BESS) projects for the data center and ...

The newly completed 12MWh energy storage project, which was developed in collaboration with SchneiTec, a renewable energy ...

Huawei has signed an agreement with the Meralco Terra Solar project in the Philippines to supply a 4.5GWh battery energy storage system (BESS). This marks Huawei"s ...

Keppel"s Infrastructure Division signed a non-binding memorandum of understanding with Huawei International to co-develop renewable energy solutions, focusing ...

It builds a product ecosystem centered on solar inverters, charge controllers, and energy storage to promote sustainable and efficient utilization of solar energy.
