What types of kitchen facilities are available for remote site camps?

Modular and containerized kitchen facilities supplied for remote site camps around the world. Whether you're looking for a standalone facility, or a modular complex that can be scaled up we've delivered kitchen and dining facilities to some of the most remote locations in the world.

What is a D-series cabinet used for?

It can be used in harsh environments such as hot/cold areas, deserts, and seaside to meet the requirements for fast outdoor deployment and application of large-capacity copper lines and OLTs. The high reliability of the D-series cabinets is recognized by global operators and has been applied in more than 100 countries.

What are the advantages of enclosed-type cabinets?

The enclosed-type design effectively protects the devices inside the cabinets from external harmful dust and gases that may cause corrosion. o The cabinets are designed with surge protection module (maximum capability: 60 kA) and MDF protective units, which can effectively protect devices inside the cabinets from surge attacks.

These have been used in a number of different sectors, including as kitchen and dining facilities for remote site exploration and mining camps, and ...
