What are IP66 enclosures?

Our IP66 enclosures offer the highest protection against particles and a high level of protection against water. Following strict IP66 standard protection rating rules, these enclosures stringently adhere to these standards, and you can expect superior quality and craftsmanship.

What are the benefits of IP67 & IP66 enclosures?

They also provide complete protection against: IP67 enclosures fully protect electronics and electrical components against dust. They are also effective at protecting against water damage during a temporary 30-minute immersion at a depth of between 15cm and 1m. Our IP66 enclosures offer protection as high as that of level 4 custom NEMA enclosures.

Are bartakke enclosures IP66 rated?

Bartakke manufactures IP66-rated stainless steel and powder-coated mild steel enclosures that provide robust, waterproof protection for electrical and control components in wet, high-humidity, and corrosive settings.

What is the difference between IP67 and IP66 enclosures?

IP67 enclosures fully protect electronics and electrical components against dust. They are also effective at protecting against water damage during a temporary 30-minute immersion at a depth of between 15cm and 1m. Our IP66 enclosures offer protection as high as that of level 4 custom NEMA enclosures. They provide a complete shield against:
