What is a cordless tool battery charger station?

This station is perfect for holding all of your cordless tool battery chargers. What sets it apart from a simple shelf is the concealed chase for routing and hiding the power cords for a nice clean look. This is a very simple project made from just a quarter sheet of plywood and a few screws.

How do you mount a battery charger?

Since the back plate has the keyhole mounting slots it's as easy as dropping the unit down on the screws on the wall and it is secure. Just plug the unit in with a PC power cord and you are ready to take charge of your battery situation for your home or shop. This was a super fun build.

How do you mount a charging station to a wall?

There are multiple ways you can mount the charging station to the wall: Use a screw through the back into a stud. Using a French cleat. I decided to use a French cleat because I didn't have two studs accessible in the space where I needed to add the cabinet.

How to choose a charging station?

The foundation of your charging station is the board that will hold all your devices and manage the cables. Select a board that's the appropriate size based on the design you sketched in Step 1. MDF is a good choice due to its smooth surface, which makes it easier to drill and modify.
