Could a £300m energy storage plant play a key role?

The backers of a pioneering £300m energy storage plant set for Greater Manchester say it could play a key role in the UK's net zero transition. Highview Power has announced it has secured investment from energy giant Centrica and the UK Infrastructure Bank to build the first commercial-scale liquid air energy storage (LAES) plant in the UK.

Who are Manchester renewables?

Here at Manchester Renewables we supply and fit all of Manchester with renewable energy products, from Solar PV Systems, EV Charging Points, Battery Storage and Heat Pumps. Our expert teams are all MCS & RECC accredited, providing you with the highest quality installations, using the best and most efficient systems on the market today.

What is energy for a sustainable & environmentally friendly Manchester?

Sustainable, reliable & affordable energy systems, Manchester renewables! Energy for a sustainable and environmentally friendly Manchester. We are committed to helping Manchester transition to zero-carbon lifestyles and help households save energy.

Could a £300m energy storage plant play a key role in net zero?

More info The backers of a pioneering £300m energy storage plant set for Greater Manchester say it could play a key role in the UK's net zero transition.

British electric vehicle (EV) charging station operator InstaVolt has officially opened the UK's largest ultra-rapid charging "Superhub", ...

The new Winchester Superhub offers a total of 44 rapid chargers, each capable of delivering up to 160kW of power. On-site solar ...
