The Middle East Solar Industry Association's (MESIA) latest report says solar capacity in the Middle East and North Africa (MENA) region grew by 25% in 2024, with local ...

Explore 10 renewable energy projects in the Middle East, showcasing solar, wind, and battery storage advancements set for 2025. Read more here.

The UAE has launched what it says is the world's first and largest 24-hour power project, combining solar photovoltaic with battery ...

Investors should look for projects combining grid integration and storage to mitigate curtailment risk. Businesses can explore off-take agreements, green hydrogen ...

Renewables capacity in the Middle East to soar in the coming years, with green energy sources outpacing fossil fuel usage in the power ...

The UAE has launched what it says is the world's first and largest 24-hour power project, combining solar ...

Despite their abundant oil and gas wealth, the member states of the Gulf Cooperation Council (GCC) are cautiously navigating the ...

With projects in 20 countries, a 6GW+ project pipeline, and 1,600MW+ in operation and under/near construction, the company is rapidly expanding its investments in wind, solar, ...

Despite their abundant oil and gas wealth, the member states of the Gulf Cooperation Council (GCC) are cautiously navigating the energy transition. Growing ...

These span solar power, onshore wind, hydro, hydrogen production, carbon capture utilization and storage (CCUS), geothermal energy, and battery and energy storage ...

Discover how the Middle East is leading the way in renewable energy with solar, wind, nuclear, and geothermal projects shaping a sustainable future.

Explore 5 groundbreaking renewable energy projects transforming the Middle East. Discover their impact and potential. Join the green revolution today!

Top 10 renewable energy projects in the Middle East Showcasing the Middle East's steadfast commitment to cleaning up its power, here are the region's most significant ...

A consortium led by Saudi utilities giant ACWA Power is to invest \$8.3bn to build 15 gigawatts of solar and wind farms in the kingdom ...

With projects in 20 countries, a 6GW+ project pipeline, and 1,600MW+ in operation and under/near construction, the company is ...

The Middle East Solar Industry Association's (MESIA) latest report says solar capacity in the Middle East and North Africa (MENA) ...

In addition to large-scale solar and onshore wind projects, Egypt is positioning itself as a clean energy corridor connecting Africa, the Middle ...

If Middle Eastern countries are to reduce carbon emissions and reach their net-zero targets, solar and wind energy must be scaled up to provide zero-carbon energy and displace ...
