-----

The proposed project will combine wind, solar, battery energy storage and green hydrogen to help local industry decarbonise. It includes an option to expand the connection to 1,200MW. [pdf]

Nassau County Executive Bruce Blakeman is ramping up his campaign against green energy on his turf -- including a planned windmill ...

This year, massive solar farms, offshore wind turbines, and grid-scale energy storage systems will join the power grid.

This transformation includes a complete shift in how electricity is generated, transmitted, and financed across The Bahamas. In New Providence, the Government has advanced the ...

Rules require New York to generate 9,000 megawatts of offshore wind energy by 2035, 6,000 megawatts of solar energy by 2025 and build 3,000 megawatts of energy storage ...

The United Arab Emirates is building the world's largest solar and battery storage project that will dispatch clean energy 24/7.

This grid-tied system will export 20 megawatts of power, leveraging cutting edge photovoltaic storage and technology to stabilize, ...

Nassau County Executive Bruce Blakeman is ramping up his campaign against green energy on his turf -- including a planned windmill ...

Following similar pieces in 2022/23, we look at the biggest energy storage projects, lithium and non-lithium,

that we've reported on in ...

Let Solar Island Energy save your business time, money and energy, and increase your value by engineering your solar PV structure, wind turbines, and microgrid installation.

Nassau County Executive Bruce Blakeman is ramping up his campaign against green energy on his turf -- including a planned windmill farm off Long Island's coast and ...

As utilities scramble to meet New York's 2030 clean energy targets, the Nassau shared energy storage project bidding process has emerged as a make-or-break moment for scalable grid ...

BPL secured funding from the Ministry of Finance and the Inter- American Development Bank to develop the project as part of the Reconstruction with Resilience in the ...

A business-focused assessment of energy storage opportunities, competing solutions and project delivery essentials. Energy storage differs from other energy ...

He argues that such initiatives, including windmills and battery storage, threaten local wildlife, the fishing industry, and provide little benefit to residents.

Opposition to large scale battery plants that store wind and solar is imperiling Gov. Kathy Hochul's clean agenda -- with a ban even imposed in the hometown of a top New York ...

Colocating wind and solar generation with battery energy storage is a concept garnering much attention lately. An integrated wind, solar, and energy storage (IWSES) plant has a far better ...

NASSAU, BAHAMAS -- The government revealed yesterday that it has selected Independent Power Producers (IPPs) to spearhead the development of utility-scale solar power in the ...
