What is an IP54 server cabinet?

An IP54 server cabinet from Lehmann IT offers excellent protection for your IT equipment against all external influences. In our range,you will find a wide selection of different models - from a simple wall-mounted enclosure to complex industrial cabinets. What are the benefits of an IP54 server cabinet?

How much protection does an IP54 server cabinet need?

For an IP54 server cabinet,a degree of protection of 4provides good protection against splashing water. Since server cabinets are not submerged,this degree of protection is usually perfectly adequate. Splash water protection is particularly useful for industrial use. An IP54 server cabinet can be a perfectly sensible purchase for many sectors.

Are prism IP54 enclosures non-returnable?

All Prism IP54 enclosures are sealed or welded in construction and fitted internally with compression gaskets,providing secure apertures and... Please Note: These products are built-to-order and therefore non-returnable.

Why is code 6 important for server cabinets?

It,therefore,offers very good protection against dust and contact,which is usually the maximum protection for server cabinets. Code number 6 is difficult to achieve because server cabinets require fans and openings as a cooling system,which prevents a completely sealed design.
