Ingrid Capacity and SEB Nordic Energy have partnered to build 13 BESS projects in southern Sweden totalling 196MW of capacity.

SEB Nordic Energy's portfolio company, Locus Energy collaborates with Ingrid Capacity to build the largest battery energy ...

The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower. Located in Nivala Municipality ...

This project combines the original solar park with a 200MWh battery energy storage system, making it the largest integrated solar and storage facility in the Nordic region. ...

The dynamic frequency regulation market in the Nordics is laying a solid foundation for a sustainable, long-term business case for ...

May 7, 2025 - With 278 lithium-ion units now drawing and storing power from Ontario's grid, the Oneida Energy Storage Project has officially entered commercial operation, becoming the ...

The collaboration combines Polarium's cutting-edge energy storage technology with Stella Futura's expertise in project development, ...

Credit: Fortum The largest battery ever developed within the Nordic countries has been commissioned at Fortum's Järvenpä power ...

It will now seek to examine commercial, technological, environmental and regulatory conditions for new

pumped hydro storage ...

Pumped-storage hydroelectricity (PSH), or pumped hydroelectric energy storage (PHES), is a type of hydroelectric energy storage used by electric ...

a wind farm in Norway generates excess energy during a stormy night, but instead of wasting it, the power gets stored in devices that charge faster than your smartphone.

As energy stakeholders anticipate the completion of the Nivala-based infrastructure, the project led by SEB Nordic Energy's Locus Energy and Ingrid Capacity AB underscores ...

According to Renewable Energy Magazine, energy company Nordic Solar has signed a credit agreement with Danish bank Ringkjøbing ...

Ingrid is developing the battery energy storage system (BESS) project in partnership with investor SEB Nordic Energy portfolio company ...

Neoen has launched construction on a 93.9MW/93.9MWh battery energy storage system (BESS) in Sweden, the largest in the country.

Energy Resources Senegal, an energy developer, majority owned by Senegal's state owned-utility, and Climate Fund Managers, an investment group in renewable energy and sanitation, ...

The Paris-headquartered independent power producer (IPP) announced construction on the Yllikkälä Power Reserve Two (YPR2) ...

We've expanded into solar energy and battery storage. Today, we develop, construct, and operate solar and storage systems. Read about our projects here.
