Why Gravity Could Solve Renewable Energy's Achilles' Heel You know how people say solar and wind power are too unpredictable? Well, Oslo's new 150-meter deep ...

Norway constitutes between 20% and 25% of Europe's gas consumption. Read more about the Norway liquefied natural gas (LNG) Market and get ...

To meet existing and growing demand while providing supply reliability, Reliable Energy Storage ("RES") plans to build a new market area storage Liquefied Natural Gas (LNG) peaking facility ...

In November 2020, UGI Energy Services, LLC commissioned their new \$60-million liquefied natural gas (LNG) peaking facility in ...

The Norwegian Offshore Directorate has compiled a CO 2 storage atlas for the Norwegian continental shelf. Norway has extensive experience with CO 2 management. Since 1996, CO 2 ...

Imagine storing enough clean energy during Oslo's rainy seasons to power 50,000 homes through its dark winters - that's exactly what the Oslo Hydropower Energy Storage ...

As energy demand continues to grow, the enhancement of natural gas storage and peaking capacity has become an important measure to ensure national energy security ...

The Oslo Grid Energy Storage Project is rewriting the rules of renewable energy management - and doing it with Scandinavian flair. Let's unpack why this initiative matters to ...

Norwegian district heating firm Hafslund Celsio will resume the carbon capture project at the Klemetsrud waste-to-energy plant in Oslo.

Aker Carbon Capture, together with Aker Solutions, has been awarded a full FEED by Hafslund Oslo Celsio (Celsio), the largest supplier of district heating in Norway, to develop ...

If the world - and Europe - are to achieve their climate targets, a wide range of climate measures are needed, including large-scale ...

The Oslo Three Peaks Energy Storage Power Station isn't your grandma's hydroelectric plant - it's a \$1.2 billion bet on solving renewable energy's "sun doesn't always ...

A WEC Energy Group subsidiary has received complaints from residents of Ixonia, Wisconsin, where the utility is proposing a \$185 ...

SunContainer Innovations - As global demand for clean energy storage solutions surges, the Oslo LNG Peaking Energy Storage Project has emerged as a blueprint for balancing grid reliability ...

Let's cut to the chase: Oslo builds largest energy storage station, and it's not just another infrastructure project. This 1.2 GWh behemoth, set to power 180,000 homes during ...

Oslo-listed global consultancy ABL Group has been hired for work on the second phase of Northern Lights, part of the Longship full-scale carbon capture and storage (CCS) ...

Norway is at the forefront of energy storage innovation, leveraging its rich hydropower heritage and cutting-edge technologies. ...

Norway is at the forefront of energy storage innovation, leveraging its rich hydropower heritage and cutting-edge technologies. Renowned for its extensive hydropower ...
