How much does electricity cost in Bosnia & Herzegovina?

Bosnia and Herzegovina, March 2023: The price of electricity is 0.097 U.S. Dollar per kWh for households and 0.110 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.

What is the energy mix in Bosnia & Herzegovina (BiH)?

The energy mix is dominated by lignite (52% in 2022). Energy consumption has declined slightly since 2018. There are many power and gas interconnection projects with Croatia, Serbia, and Montenegro. Bosnia and Herzegovina (BiH) is a Balkan country that became independent from Yugoslavia in 1992.

Why is Bosnia & Herzegovina's energy sector so vulnerable?

This delay persists despite the ENTSO-E cybersecurity report from 2022, which identified Bosnia and Herzegovina's energy sector as one of the most vulnerable in the region due to outdated infrastructure and insufficient cybersecurity investments.

Does Bosnia and Herzegovina have a national energy and Climate Plan?

Bosnia and Herzegovina submitted an updated descriptive part of its National Energy and Climate Plan (NECP) on 28 June 2024, as well as a summary of how the Secretariat's recommendations had been taken into account.

Contents (2/2) Location of renewable energy sources Development of wind power Development of photovoltaic power & concentrated solar power RES installed capacity and ...

Since small-scale solar competes with end user electricity prices instead of wholesale electricity prices, solar PV is becoming an attractive investment for some groups of ...
