How much does a solar panel installation cost in Malaysia?

A typical residential solar panel system in Malaysia is 6.6kW and a good quality installation will cost between RM18,500.00 up to RM30,000.00. But why the big difference in cost? Whether a 6.6kW system is an appropriate size installation for you or not is a good question and will depend on your electricity usage.

Which solar panels are best in Malaysia?

Tip: Typically, the larger the solar system, the faster the payback period (ROI). Solar Panel Brand Top brands in Malaysia include Jinko, Trina, Longi, and JA Solar. Premium panels offer better warranties, higher efficiency, newer technology, and a longer brand history.

Are solar energy incentives a good investment in Malaysia?

Although this cost may seem daunting, many renewable energy incentives in Malaysia offer cost-saving opportunities for businesses and individuals alike, and contracts such as power purchase agreements (PPA) help companies avoid the upfront costs of buying and installing solar energy systems.

Why should you choose solar energy in Malaysia?

Steadily serving Malaysia since 1949, we are with you all the way from design, installation up to maintenance. You can generate your own electricity and sell the excess to us. Solar energy is green, sustainable and does not emit pollutants when produced or consumed.
