Which energy storage systems are UL certified?

The complete system is certified to the latest UL 9540, the safety standard for energy storage systems in both the Canada and the USA. SUNSYS HES L is a modular energy storage system that uses 2 standard cabinets to enable 29 UL-certified configurations, providing ideal system sizing for a variety of projects.

What makes esvolta a reliable energy storage company?

Powered By Reliability. Focused on sustainability and innovation, esVolta develops, owns, and operates reliable utility-scale energy storage assets across the entire lifecycle - delivering value for utilities, energy users, and investors. From concept to commissioning, each project reflects our commitment to reliable, scalable energy storage.

What makes esvolta unique?

Built With Purpose. Powered By Reliability. Focused on sustainability and innovation, esVolta develops, owns, and operates reliable utility-scale energy storage assets across the entire lifecycle - delivering value for utilities, energy users, and investors.

Why should you choose CATL & socomec battery cabinets?

The battery cabinets are delivered fully assembled, and include made-to-measure cable kits for DC, communication and auxiliary power connections. Thanks to a co-design between CATL and Socomec, you can be assured of compatibility between products, and that the complete system has been validated and certified.
