How much does a solar powered fan cost?

The average price of a solar powered fan is around USD 575 - USD 775 (Approximately Rs. 45,673 - Rs. 61559). Besides, the installation expenses for such fans depend on the type of the fan itself. Q.

What is the biggest solar attic fan?

Solatube Home's Roof Mount 2400 Solar Attic Fan is the biggest solar attic fan we offer. It boasts an industry-leading 35-watt solar panel that generates maximum energy for major air movement when summer hits.

What is a solar-powered attic fan?

A solar-powered attic fan is a device that equalizes interior and exterior temperatures, safeguarding your home from the worst of winter. It removes excess humidity from sources like showers, humidifiers, and dishwashers. Additionally, it prevents leaks and structural decay triggered by ice buildup on your roof, and avoids damage to insulation and framing materials caused by moisture accumulation.
