**Will Malaysia build a solar panel factory?**

News about the solar panel factories in Malaysia came after, in March 2023, the Chinese company announced partnering with Invenergy, a US power developer, to build a solar panel assembly factory in the US state of Ohio. Last year, Malaysia attracted over \$36.9bn in FDI, with 78.3% of total investment going into manufacturing.

**What is Malaysia's largest floating solar system?**

The 50 MW floating solar system--the largest of its kind in Malaysia--was developed in partnership with Chinese firms, including China Power International Development and Trina Solar. Beyond Chinese involvement, the project has also attracted strong interest from Middle Eastern energy developers.

**Where in Malaysia will a photovoltaic factory be built?**

China-based photovoltaics company Longi has said it will build three photovoltaic (PV) factories in Serendah, a town located 25km north of the country's capital Kuala Lumpur. According to Malaysian media outlet Bernama, Longi has invested MYR1.8bn (\$250m) in the three factories, which are expected to be completed by March 2024.

**Who is solarvest Malaysia?**

Solarvest is Malaysia's leading, largest, and award-winning integrated solar provider, with over 10 years of expertise and a strong track record. As a trusted solar company in Malaysia, we have developed more than 2,000MW of ongoing and completed projects across 8 countries in the Asia Pacific region.

The new guidelines remove these limitations, allowing: Ground-mounted solar systems: Ideal for facilities with higher energy ...
