-----

Delta Capacity is a Swiss-based developer of utility-scale battery storage systems and has quickly become one of Europe's fastest growing companies in the BESS sector.

The water battery that recently went operational in Switzerland has a storage capacity of 20 million kWh, the equivalent of 400,000 ...

Lead-acid LAB LAB systems have a relatively high risk of energetic failure, mostly related to the increased production of a highly flammable hydrogen-oxygen mixture in the case of ...

We're excited to take an important step in Switzerland's energy transition together with Primeo Energie. In Kappel, in the canton of Solothurn, one ...

A pumped hydro energy storage (PHES) plant with a capacity of 20GWh in Valais, Switzerland, will begin operations on Friday, 1 July.

The battery energy storage system (BESS) in Bonadu, Graubünden canton, will have a power rating of 50-60MW and an energy ...

Switzerland is expanding rules for rooftop solar, energy storage, and energy communities to expand self-consumption and ease pressure on the grid. The new regulations, ...

Why Switzerland's Betting Big on Battery Storage You know how Switzerland's famous for chocolate and banks? Well, they're now making waves in energy storage. The Federal Council ...

How can excess electricity produced by the sun and wind be prevented from being lost? A gravity battery developed in Switzerland stores renewable energy in heavy blocks of ...

Delta Capacity is a Swiss-based developer of utility-scale battery storage systems and has quickly become one of Europe's fastest growing ...

Traditional pumped-storage plants like Nant de Drance (a beast capable of powering 400,000 homes) now share the stage with grid-scale batteries. In 2023, ...

Axpo is currently building one of Switzerland's largest battery storage facilities in Gurtellen in the canton of Uri, with a capacity of 50 ...

Flexbase Group has begun construction on what could become one of Europe's largest flow battery storage installations, ...

With a capacity of 100-120 MWh and an output of 50-60 MW, the facility will help stabilize the national grid by storing surplus energy during low-demand periods and supplying ...

Swiss Clean Battery is set to start commercial production of its pure solid state batteries in Switzerland. The batteries are based on a protected electrolyte made of a solid ion ...

Greece is getting four new battery energy storage systems (BESS) amounting to 105 MWh, while Germany's Intilion will develop 65 ...

Axpo is currently building one of Switzerland's largest battery storage facilities in Gurtellen in the canton of Uri, with a capacity of 50 MW. The facility can store up to 100 ...

The 20 MW Northern New York Energy Storage project installed and operated by the New York Power Authority connects into the ...
