Should Uzbekistan build a wind generator?

Rather, existing environmental parties in Uzbekistan support the construction of renewable energy facilities. Large-scale solar PV plants have yet to be developed in the country, but no local opposition to the construction of wind generators has been met so far.

Who provided feedback and input to Uzbekistan's solar energy project?

Valuable comments, feedback and input were provided by Bekzod Asadov and Askar Zaitov (the Ministry of Energy of the Republic of Uzbekistan), Philippe Malbranche (the International Solar Alliance), Seung Duck Kim (the Asian Development Bank), and Alexander Zenebe (the EU Delegation to Uzbekistan).

What is solar energy policy in Uzbekistan?

This Solar Energy Policy in Uzbekistan Roadmap is part of the EU4Energy programme, a five-year initiative funded by the European Union. EU4Energy's aim is to support the development of evidence-based energy policy design and data capabilities in Eastern Partnership and Central Asian countries, of which Uzbekistan is a part.

What is the first wind power project in Uzbekistan?

In April 2020, there was an announcement about the first wind power project in Uzbekistan - "Construction of Wind power plant with the capacity of 100 MW in Karakalpakstan Republic*, Beruniy region". At the end of the EoI process, 70 leading companies and/or consortiums worldwide submitted applications for participation in competitive bidding.
