Georgia Power recently announced that construction is underway for four new battery energy storage systems in strategic ...

Innovations in battery chemistry, such as the development of solid-state batteries and improvements in lithium-ion technology, are expected to increase energy density, reduce ...

ATLANTA - February 19, 2025 - Governor Brian P. Kemp today announced that Duracell, one of the world's leading battery manufacturers, will establish its new Global Headquarters for ...

Ever wondered how your solar panels work when the sun goes down? Enter energy storage cabinet development - the unsung hero of modern power management. As global renewable ...

Atlanta, GA - Governor Brian P. Kemp today announced that Duracell, one of the world's leading battery manufacturers, will establish ...

Georgia-based firms are rewriting the playbook on lithium-ion tech. Take SaltWave Solutions, a startup mixing common salts to create thermal batteries that store 40% more ...

Georgia Power, the largest electric subsidiary of Southern Company, announced that construction is underway on 765-MW of new battery energy storage systems (BESS) ...

Ever wondered why Tbilisi energy storage battery wholesale is suddenly buzzing? Georgia's capital, nestled between mountains and modernity, is now charging ahead as a key ...

Georgia Power, the largest electric subsidiary of Southern Company, announced that construction is underway

on 765-MW of new ...

Hyundai Motor Group and LG Energy Solutions announced plans on Thursday to build a \$4.3 billion electric vehicle battery plant in ...

1. Georgia generated more solar energy in 2023 alone than all solar generation before 2019 combined. Georgia produced 8,103 GWh of ...

An additional 1,000 MW of new battery energy storage is expected to be procured in the coming years through competitive bidding ...

Georgia's energy landscape is buzzing louder than a beehive in July, and battery storage companies are the queen bees. With utilities like Georgia Power committing to shut ...

ATLANTA, Oct. 20, 2025 /PRNewswire/ -- Georgia Power announced today that it has started construction on a new 200-megawatt (MW) battery energy storage system (BESS) in Twiggs ...

An additional 1,000 MW of new battery energy storage is expected to be procured in the coming years through competitive bidding processes and a 13 MW demonstration ...

GEFA is responsible for funding more than 600 kilowatts (kW) of solar energy installations, providing scholarships for energy education and workforce development, updating building ...

The first such project Georgia Power contracted for, Hickory Park, is a 196MW solar PV plant paired with 40MW/80MWh of battery ...

Battery energy storage is taking center stage in Georgia's utility planning, as Georgia Power moves forward with more than 765 megawatts of new storage capacity across ...
