The Energy Market Regulatory Authority (EMRA) approved a 35-gigawatt-hour (GWh) capacity allocation for grid-scale storage ...

The Energy Market Regulatory Authority (EMRA) took a significant step in 2023 by introducing a regulatory framework allowing co-located battery storage facilities alongside ...

After the successful completion of the continuous full-load energy storage-power generation test, it was officially put into operation to become a milestone in the development of new energy ...

Istanbul-based renewables developer Polat Energy has signed Turkey's largest battery energy storage system supply agreement with Rolls-Royce, a German power solutions ...

This project will be Europe's largest energy storage facility." Yilmaz thanked the officials of the two companies involved in the project ...

The 33.5MW/67MWh large-scale energy storage project, which is also the largest battery storage project in Brazil, with PCS ...

Turkey plans to build 80 GWh of capacity by 2030, aiming to become a regional center for battery technology production and investment.

Recently, the 60MW electrochemical energy storage project of the 1-2 and 6-7 generation units at Guangdong Taishan Power Plant under CHN Energy, the largest electrochemical energy ...

The project is Tesla's second plant in Shanghai, underscoring the US company's commitment to investing in

the world's second-largest ...

"China has put into operation the first large-scale storage station with sodium-ion batteries, marking a new era for low-cost batteries for large-scale use," said China Southern ...

Progresiva, a subsidiary of Kontrolmatik Technologies, is set to embark on Türkiye's largest grid-scale energy storage project in Tekirdag. This groundbreaking facility will ...

A Turkish firm on Wednesday said it had signed Türkiye's largest battery energy storage system supply agreement with Rolls-Royce to increase the capacity at a wind power ...

Timeline: Energy storage investments will gain speed by the first quarter of 2025, with systems operational by early 2026. Objective: Store excess wind and solar energy for use ...

This is currently the world's largest sodium-ion battery energy storage project and marks a new stage in the commercial operation of sodium-ion battery energy storage systems, ...

Progresiva, a subsidiary of Kontrolmatik Technologies, is set to embark on Türkiye's largest grid-scale energy storage project in ...

HEI and Türkiye's Progresiva Energy signed an agreement to establish the first gigawatt-level energy storage project in the country that ...

Istanbul-based renewables developer Polat Energy has signed Turkey's largest battery energy storage system supply agreement ...

A Turkish firm on Wednesday said it had signed Türkiye's largest battery energy storage system supply agreement with Rolls-Royce to increase ...
