Will a UK battery energy storage project come online next year?

One of UK's largest battery energy storage projects has changed hands and will come online next year as part of a low carbon energy park in Greater Manchester. UK-based developer Statera Energy has acquired a 680 MW/1360 MWh battery energy storage project in Greater Manchester from Carlton Power.

Who owns Carlton power's 'Carrington storage' project in Greater Manchester?

UK-based developer Statera Energy has acquired a 680 MW/1360 MWh battery energy storage project in Greater Manchester from Carlton Power. Located at Trafford Low Carbon Energy Park, Carrington Storage is expected to become one of the largest of its kind in Europe once fully energised in 2026.

Who owns Trafford low carbon energy park?

Courtesy of Carlton Power/Statera Energy. The 12-hectare Trafford Low Carbon Energy Park is a brownfield site located eight miles southwest of Manchester and is owned by Carlton Power. It was until 1991 the site of the Carrington coal-fired power station.

What is Statera's biggest consented battery storage project?

Statera's latest project has already been approved by Trafford Council and is its largest consented battery storage project to date. The company was founded in 2016 and has over 1 GW of UK projects operational or in construction, and as of the latest announcement - a consented battery storage pipeline of 1370 MW.

Statera Energy has bought the development rights for a £163.750m, 680MW battery energy storage system project in north-west England. Located at Trafford Low Carbon Energy ...

Statera Energy has acquired the rights to build a 680MW battery energy storage system project in Manchester from Carlton Power.
