Does the warranty model for energy storage systems keep pace?

Inflexible and complex, the warranty model for energy storage systems has failed to keep pace with rapid market growth, the authors argue. This is an extract of a feature article that originally appeared in Vol.41 of PV Tech Power, Solar Media's quarterly journal covering the solar and storage industries.

What is a battery energy storage system (BESS) warranty?

As challenging as warranties are for battery energy storage system (BESS) owners and operators, it is possible for there to be more clarity. Look no further than how the automotive industry handles electric vehicle warranties. They are simple and flexible, typically covering time (usually eight years) and mileage (usually 100,000 miles).

What is included in a subscription to energy-storage & smart power?

Every edition includes 'Storage & Smart Power', a dedicated section contributed by the Energy-Storage.news team, and full access to upcoming issues as well as the nine-year back catalogue are included as part of a subscription to Energy-Storage.news Premium.

What is an annual SoH warranty?

Annual SoH warranty: Promises a maximum yearly degradation rate rather than just an end goal. This annual cap makes it easier to plan and track performance over time, though it still requires strict adherence to narrow operating conditions to keep the warranty valid.

It is a professional battery energy storage system (BESS) provider that provides reliable energy storage solutions to the world by integrating expertise in electrochemistry, ...
