Why should you choose Shield for your outdoor telecom enclosure?

This solution is also ideal for rapid deployment at the network edge. SHIELD offers a wide range of customization features for your outdoor telecom enclosures such as machining, special dimensions, custom colors, and additional protection for harsh environment.

Why should you use an outdoor telecom enclosure?

Therefore, using an outdoor telecom enclosure to house these components is vital for their protection. Today's best protection is a NEMA (National Electrical Manufacturers Association) rated telecom box. NEMA 3 or NEMA 4 rated boxes are best for inclement outdoor conditions.

What is a top-hinging medium security MDU enclosure?

The Top-Hinging Medium Security MDU enclosure provides protected access for multi-dwelling fiber or telecom equipment, featuring a durable powder-coated design, secure hinged door, ample cable routing space, and flexible mounting options for broadband and telecom distribution needs.

Which NEMA rated boxes are best for inclement outdoor conditions?

NEMA 3 or NEMA 4 rated boxes are best for inclement outdoor conditions. NEMA developed scrupulous testing procedures to ensure these telecom enclosures offer enhanced protection from criminal elements and extreme weather conditions such as snow and ice, driving rain, wind-blown debris, and heat.
