What is a 100kW solar package?

Our 100kW solar package provides steady and reliable power for every part of your business, with tier 1 solar panels in a massive configuration and a serious 100kW solar inverter.

What is a 100kWh solar battery?

When we say "100kWh solar battery," that refers to its total storage capacity: roughly 100 kilowatt-hours of energy ready to use. These batteries are typically lithium-ion commercial-grade units, often VPP-ready (Virtual Power Plant capable), so you can integrate into larger energy networks if you choose.

Who is direct solar wholesaler Energy Group?

Direct Solar Wholesaler Energy Group is a national-wide renewable energy solar and battery company. We carry most of the quality brands in the market, from panels to inverters and battery storage.

How much does a solar battery cost in Australia?

But if you plan well, those costs soften pretty fast. The starting price for a 100kWh commercial solar battery in Australia is around A\$68,999, and installation usually adds A\$1,000-3,000, depending on your site setup. If you're also installing a solar system (like a 100kW array), that could cost an extra A\$80,000-120,000.
