---

CABINET has approved the Presidential Solarisation Project which seeks to promote the rural industrialisation development agenda by expanding solar-powered ...

A Grid Impact Assessment led to the Cabinet's approval of a 600MW floating solar power plant on Lake Kariba, considering grid stability and the risks of concentrating generation ...

This blog explores five critical angles shaping the future of solar energy investments in Zimbabwe. From high-tech planning tools like GIS-based predictive models to ...

Cabinet considered and approved the Memorandum of Understanding between the Republic of Zimbabwe and Shelter-Afrique Development Bank which was presented by the Minister of ...

Solar energy is radiant light from the sun that is harnessed through a range of ever-evolving technologies such as solar heating, solar thermal energy, ...

Zimbabwe's Distributed Energy Revolution Gathers Pace Blanket Mine's solar handover is not a one-off -- it's part of a wider decentralised power movement in Zimbabwe. ...

Cabinet considered and approved the Memorandum of Understanding between the Republic of Zimbabwe and the International Solar Alliance (ISA) for the Establishment of a Solar ...

Grid Africa, a Pan-African distributed energy developer, and TCL Solar, a global leader in photovoltaic technology, have announced a ...

Zimbabwe has solar irradiation averaging 20 MJ per m<sup>2</sup> and 3,000 hours of sunshine per year. Its location and climate provide a lucrative opportunity for investment in ...

The government-backed initiative will provide rural communities with affordable, state-of-the-art solar energy systems to power various appliances and devices.

TCL Solar has partnered with Grid Africa to develop 100 MW of distributed solar photovoltaic and battery storage systems across Zimbabwe and Zambia. The initiative will ...

TCL Solar has announced a strategic partnership with Grid Africa to deploy 100 megawatts (MW) of distributed solar and battery ...

DPZ covers the cost of installation, equipment, and maintenance, making clean energy adoption frictionless and cash-flow positive from day one. A selection of commissioned clean energy ...

A Grid Impact Assessment led to the Cabinet's approval of a 600MW floating solar power plant on Lake Kariba, considering grid ...

Solar and Storage Zimbabwe 2025 concludes in Harare, driving clean energy dialogue, solar adoption, energy storage integration, and policy-led market collaboration.

The Zimbabwean government has unveiled an ambitious plan to install solar systems in one million rural households under the Presidential Rural Solarisation Project.

Our optimized solar module design is engineered utilizing the latest advancements in technology, ensuring enhanced performance and energy yield for the region.&quot; TCL Solar is ...

CABINET has approved the Presidential Solarisation Project which seeks to promote the rural industrialisation development agenda by ...
